AI builder and community organizer bridging autonomous-agent architecture with grassroots technical leadership — driven to make cutting-edge AI tools like Claude accessible, understood, and adopted across campus.

EDUCATION

Dr. Vishwanath Karad MIT World Peace University — B.Tech, Computer Science and Engineering

Expected Spring 2029

EXPERIENCE

DevOps Intern — Cloudbury Tech

June 2025 – August 2025 | Pune, Maharashtra, India

- Strengthened team delivery reliability, **as measured by** reduced manual deployment overhead, **by** supporting CI/CD pipeline operations and applying GitLab Solutions Architect-level practices to internal workflows.

AI PROJECTS

OpsAgent — Autonomous AI Developer Assistant

- Architected a privacy-first, local-agent AI system, **as measured by** a fully on-device autonomous developer assistant, **by** designing an agent architecture that combines local execution with AWS cloud services for scalability.
- Validated the system's technical merit, **as measured by** earning a Top 300 Global Semi-Finalist standing while competing solo against teams and developers from 112+ countries, **by** building and submitting OpsAgent to the AWS 10,000 Aldeas Competition.
- Engineered core intelligence capabilities, **as measured by** relevant, context-aware agent responses, **by** implementing Retrieval-Augmented Generation (RAG) pipelines backed by local vector databases.

Mood Arcade — Universal Emotion SDK for Affective Gaming

- Built a real-time emotion-recognition SDK, **as measured by** low-latency, in-game affective feedback, **by** developing a WebSocket pipeline connecting Unity to a Node.js backend.
- Enabled cross-platform adoption, **as measured by** SDK usability across game engines, **by** designing a modular Node.js/Express.js architecture decoupled from any single client.

CAMPUS LEADERSHIP & COMMUNITY ORGANIZING

Founder & Team Lead — "Code Crafters"

- Established a new campus innovation community, **as measured by** a fully formed, branded team representing the university, **by** founding and leading Code Crafters for the R.I.D.E conclave.
- Grew organizational visibility, **as measured by** consistent representation at a flagship university tech event, **by** building the team's identity, structure, and recruitment from the ground up.

Sports Committee Coordinator — MIT-WPU Annual Sports Summit

- Delivered seamless multi-event execution, **as measured by** successful completion of inter-departmental badminton and chess tournaments, **by** owning end-to-end scheduling, registrations, and standings management.
- Coordinated cross-departmental participation, **as measured by** smooth logistics across multiple teams, **by** acting as the single point of contact for tournament operations.

SKILLS

AI & Systems: Autonomous Agent Systems · Retrieval-Augmented Generation (RAG) · Local Vector Databases · Systems Programming

Cloud & DevOps: Amazon Web Services (AWS) · GitLab CI/CD

Languages & Frameworks: Python · Java · C++ · JavaScript · Node.js · Express.js · React · Electron

CERTIFICATIONS

- GitLab Solutions Architect Core (Verified Associate) & CI Fundamentals
- Checkmarx Partner "Technical Seller"
- Deloitte Australia — Technology Job Simulation

HONORS & AWARDS

- Semi-Finalist, Top 300 Globally** — AWS 10,000 Aldeas Competition (solo entrant, 112+ countries represented)
